

Science Competition

Tuesday 12th March 2024

Dear parents/ carers

Today marks the beginning of science week, and we are encouraging the children to embrace their inner curiosity with experiments, investigations and observations. We would love this to extend into your homes too!

In assembly today, we launched our 'Science Selfie' competition. Your child will have the chance to win a prize for snapping a selfie while enjoying a scientific activity outside of school. The selfie might include a 'science' visit or walk, or a snap of them taking part in a science activity or experiment at home. You can be as creative as you wish!

To enter, all children have to do is ask their adult at home to email their 'science selfie' to their class teacher by Thursday 28th March. Only one entry per person please.

In case you need a reminder of the class teachers' email addresses, here they are:
