

Family Maths

15th November 2024

Dear parents/ carers,

We are excited to invite you to our first session of Family Maths this academic year which will take place on Friday 29th November from 2.20-2.50pm. It is a valuable opportunity to come into school and engage in some fun maths activities with your children. Do not worry – you will not be tested nor judged on your maths knowledge!

During the session, you will have the chance to investigate number, explore shapes and use problem-solving to think outside the box! If you have children in different classes, you will be able to join up as a family to complete tasks.

There is an example of an activity below; maybe you could have a go at this one at home?

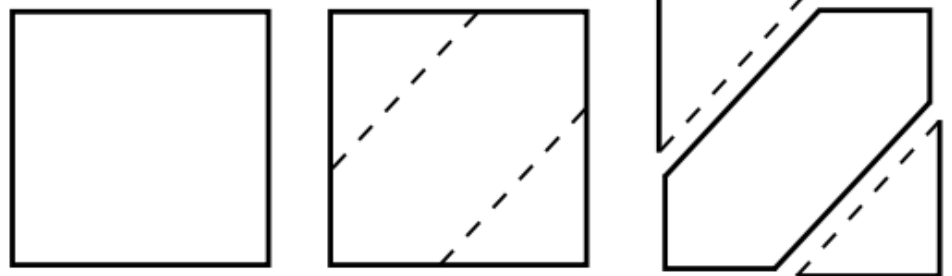

We look forward to seeing you in a couple of weeks.

Kind regards

L. M. Gibbs

Deputy Headteacher

Start with a square.

Which of these shapes can you make by making two straight cuts to it?

Pentagon	Hexagon	Octagon	A seven-sided shape
Trapezium	Parallelogram	Rhombus	Irregular quadrilateral
Kite	Right-angled triangle	Isosceles triangle	Equilateral triangle

Inspiring the learning journey!
